

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims**

**In the Claims:**

Please renumber claims 9-13 and amend claims 9-10 as follows:

Claim 1 (original) A transdermal delivery system for local anesthetic, immunosuppressive and neurologically effective drugs, as well as for polypeptides and protein-based drugs, comprising a local anesthetic, immunosuppressive or neurologically effective drug, as well as a polypeptide or protein-based drug in combination with water-miscible tetraglycol and water for dissolving said drug in hydrogel form, wherein said transdermal delivery system is in the form of a microemulsion.

Claim 2 (original) A transdermal delivery system according to claim 1, further comprising an ionized polymer.

Claim 3 (original) A transdermal delivery system according to claim 2, wherein said ionized polymer is selected from the group consisting of cationized guar gum, cellulose derivatives, acrylic polymers, polysaccharides, lipids, proteins and polyhydroxy compounds.

Claim 4 (original) A transdermal delivery system according to claim 2, wherein said ionized polymer is a guar-based polymer, which serves as a gelling agent for said composition.

Claim 5 (original) A transdermal delivery system according to claim 3, wherein said guar-based polymer is hydroxypropyl guar hydroxypropyltrimonium chloride.

Claim 6 (original) A transdermal delivery system according to claim 1, wherein said drug is selected from the group consisting of granisetron, lidocaine, and cyclosporine.

Claim 7 (original) A transdermal delivery system according to claim 1, wherein said transdermal delivery system is in the form of a hydrogel patch.

Claim 8 (renumbered) A transdermal delivery system according to claim 1, further comprising a skin penetration enhancer.

Claim 9 (renumbered and amended) A transdermal delivery system according to claim 8, wherein said skin penetration enhancer is a non-ionic surfactant.

Claim 10 (renumbered and amended) A transdermal delivery system according to claim 9, wherein said non-ionic surfactant is selected from the group consisting of sorbitan sesquioleate, cetostearyl alcohol, polysorbate 60, sorbitan monostearate, sorbitan monooleate, polyoxyethylene 23 lauryl alcohol, glyceryl mono/di-oleate and mixtures thereof.

Claim 11 (renumbered) A transdermal delivery system for an alcohol-miscible drug comprising an alcohol-miscible drug in combination with water-miscible tetraglycol and water for dissolving said drug in hydrogel form.

Claim 12 (renumbered) A topical delivery system for local anesthetic, immunosuppressive and neurologically effective drugs, as well as for polypeptides and protein-based drugs, comprising a local anesthetic, immunosuppressive or neurologically effective drug, as well as a polypeptide or protein-based drug in combination with water-miscible tetraglycol and water for dissolving said drug in hydrogel form, wherein said topical delivery system is in the form of a microemulsion.
